PROFILE

I have decided countless hours to honing my skills and expanding my knowledge in the field of software development. I am deeply passionate about crafting elegant and efficient solutions that push the boundaries of what is possible. Every line of code I write is a testament to my meticulous attention to detail and my unwavering commitment to delivering the highest quality work. From the front-end to the back-end, I relish the challenge of seamlessly integrating different technologies and frameworks to create cohesive and intuitive applications. I am constantly pushing myself to learn and grow, staying up-to-date with the latest industry trends and exploring new tools and techniques.

WORK EXPERIENCE

Associate Software Engineer

Hurak Educations System. Jan 2023-June 2024

- Supported the implementation of front-end functionality and interactivity using JavaScript library such as React or using plain JS with HTML & CSS..
- Participated in code reviews to learn and improve coding practices, adhering to coding standards and best practices.
- Assisted in troubleshooting and debugging issues, contributing to timely issue resolution and bug fixing.
- Actively engaged in learning and self-improvement, seeking opportunities to expand technical skills and knowledge.
- Participated in code reviews, offering feedback and suggestions to improve code quality and maintainability.
- Supported the implementation of RESTful APIs and backend functionality using PHP and Node.JS.

Senior Software Engineer

EasyStay Inc. July 2024-June 2025

- Collaborated with senior developers and team members to gather project requirements and translate them into technical specifications.
- Developed responsive and user-friendly front-end interfaces using HTML, CSS, and JavaScript library such as React.js.
- Implemented server-side logic and RESTful APIs using Node.js and Express.js to facilitate data retrieval and manipulation.
- Integrated MongoDB databases to store and retrieve data efficiently, ensuring data integrity and security.
- Participated in code reviews, offering feedback and suggestions to improve code quality and maintainability.
- Assisted in debugging and troubleshooting issues to identify and implement timely solutions.
- Worked closely with UI/UX designers to ensure seamless integration of design elements into the application.
- Collaborated with cross-functional teams to integrate third-party APIs and services, enhancing application functionality.
